ABOUT Galistair Infinite Aviation

- ▶ Founded in December 2016, our company was incorporated with the purpose of providing passenger and cargo air services. In order to achieve this goal, an Airbus A321-200 aircraft of 215 seats was brought under a Lease Agreement. Being Madrid the home base, we became the first and only ACMI operator of Airbus A321 in Southwest Europe and North Africa.
- ▶ During the first years of operation and while our own AOC (Air Operator's Certificate) was being process, an agreement was signed with the Portuguese company White Airways S.A., who was in charge of operating our marketed flights during this first stage. With this at hand, we guaranteed our customers and suppliers to start our operations on a sure date and in a secure manner.

ABOUT Galistair Infinite Aviation

- ▶ At the beginning of 2019 we began the process of creating our own AOC in Malta, since it's a country that for years has been collaborating with the various airlines that decide to establish themselves there, and which considers the airline industry as strategic.
- ▶ This is the reason why Galistair Trading Ltd. was incorporated in Malta by meeting the requirements of the local authority. This company is the holder of the AOC which was finally issued on January 24, 2020. This milestone allowed us to operate under our own responsibility all the company's flights, and to stop depending on third party companies with the consequent cost savings and greater control over our operations.

The image shows a scanned Air Operator Certificate (AOC) form. At the top center is the coat of arms of Malta. Below it, the title reads "AIR OPERATOR CERTIFICATE (Approval schedule for air transport operators)". The form is divided into several sections. The "Types of Operation" section includes checkboxes for "Commercial air transport (CAT)", "Passengers", "Cargo", and "Other", with "Passengers" and "Cargo" checked. The "REPUBLIC OF MALTA" section identifies the "Transport Malta Civil Aviation Directorate". The "AOC #: MT-59" section lists "Galistair Trading Ltd" with its address: "Suzanne Court A, No 8, 4th Floor Level, Triq Abate Rigord, Ta' Xbiex, Malta". It also provides contact information: "Business Telephone: + 34 630079767", "Business Fax: N/A", and "Email: [groundops@galistair.com](\"mailto:groundops@galistair.com\")". The "Operational Points of Contact" section states: "Contact details at which Operational Management can be contacted without undue delay are listed in the Operations Specifications." A certification statement follows: "This certificate certifies that Galistair Trading Ltd is authorised to perform commercial air operations, as defined in the attached operations specifications, in accordance with the operations manual, Annex V to Regulation (EU) 2018/1139 and its Implementing acts." The "Date of issue" is "24-01-2020". The "Name" is "Capt. Charles Pace" and the "Title" is "Director General for Civil Aviation". A signature is present next to the title, accompanied by a circular official seal of the Transport Malta Civil Aviation Directorate. At the bottom left is the "tm" logo for Transport Malta Civil Aviation Directorate. At the bottom right is the identification number "CAD006106".

EXPERTISE

To maximize the aircraft use and minimize costs

OPERATE A320 and A330.

Up to the highest service standards and commercial needs.

QUALITY

Flexibility, service and a safe operation

PERSONAL SERVICE

An aircraft and fleet with custom livery and image

CAMO

In order to minimize the time and incidence of AOG and reduce delays, Galistair has signed agreements with AVtrade for components and TP Aerospace for wheels and brakes.

Their support together with the contracts with first class maintenance companies in base and in every destination assures the minimum impact of technical issues.

TP AEROSPACE AND GALISTAIR HAVE ENTERED INTO A WHEEL & BRAKE PARTNERSHIP

TP Aerospace, the world's largest independent Wheels and Brakes provider, has engaged in a partnership with Galistair to provide an all-inclusive cost-per-landing support Program in support of Galistair's current and future fleet.

Galistair will benefit from TP Aerospace's global reach via its current seven locations worldwide in the EMEA, Americas and APAC regions with own in-house workshops as well as more than 13,000 Wheels and Brakes on stock.

TP Aerospace is very proud of having been selected by Galistair to take active part in securing its future success and will do our utmost to meet and exceed Galistair's expectations during our long-term relationship.

Avtrade signs new Power-by-the-Hour contract with Galistair Infinite Aviation

Avtrade, a world leading provider of aircraft component solutions, is happy to announce the expansion of its power-by-the-hour (PbH) growing European customer portfolio with the signature of a new Support contract with Madrid based MCM Avline Galistair, well-lease specialist in the Southwest Europe region.

In addition to wet lease services, Galistair is able to offer ad-hoc and charter flights and a whole range of tailored services to meet the needs of the market. Avtrade's UK based Global Headquarters and network of regional offices based in Dubai, Singapore and Guangzhou are ideally positioned to support the airline with a dedicated, high quality local service. Offering experienced aircraft support, Avtrade utilizes strong independent MRO and O&M relationships to supply efficient on-time processes, quick turnaround and delivery of components.

We are passionately committed to work together with Galistair to help them achieve their mission "To grow a profitable airline with passion for our customers providing the highest standards of service, safety, reliability, transparency and flexibility".

Judith Salestrini, Support Contracts Manager

"This contract represents an important reinforcement of our success with European contract support, building on the success of other completed implementations this year. Our proven contract win momentum demonstrates our excellent delivery model, as well as continued support innovation. The start of this new client relationship complements our recent European contract wins, providing increasing breadth and diversity across our client base. We are very excited to be working with Galistair and supporting them while they establish themselves"

CERTIFICATE OF INSURANCE REFERENCE: C22/GALISTAIR/05

THIS IS TO CERTIFY that we, as Insurance Brokers have placed Insurance in the name of GALISTAIRTRADING LIMITED (hereinafter called the "Insured"), covering their operations in connection with their fleet of aircraft, including all new and acquired aircraft from the moment they become the insurance responsibility of the Insured against the following risks and up to the limits stated:-

1. HULL ALL RISKS (including Spare parts, engines, flight spares kits (including whilst attached to the aircraft), ground support equipment (including unlicensed vehicles), tools, components and equipment destined to be fitted to or to form part of an aircraft and/or to be used in connection with the servicing, maintenance or repair of aircraft (hereinafter referred to as "Spare parts") being the property of the Insured or the property of others for which the Insured has agreed to be responsible against all risks of loss or damage whilst such property is in the care, custody or control of the Insured, whilst at the premises of others or whilst in transit by any means of conveyance including by the Insured's aircraft - hereinafter called "Spare parts") OF LOSS OR DAMAGE whilst flying and on the ground for an Agreed Value each aircraft. The coverage provided under this insurance is subject to the following deductibles:-

USD 750,000 each loss, other than in the event of any form of total loss.

Spare parts and Equipment - USD10,000 each and every claim shall be deducted from the amount otherwise payable in respect of loss of or damage to Spare parts. However, claims in respect of ingestion damage to an engine sustained during engine running shall be subject to the same deductible as would apply to the engine when installed in its specific aircraft type (as set forth above). In the event of a total loss, constructive total loss or arranged total loss as a result of ingestion, no deductible shall apply.

Nevertheless in the event of an incident arising hereon involving the application of more than one deductible, then only one deductible shall apply (being the highest applicable) as an aggregate deductible for all losses arising out of that incident.

However the following deductibles apply for fly-away spare parts kits and engineers /mechanic tools.

USD1,000 any one kit in respect of fly-away spare parts kits;

USD100 each claim in respect of engineers' and mechanics' tools.
